

Amendments to the specifications:

Please replace paragraph [0029] beginning on line 22 on page 9 with the following replacement paragraph:

A2 [0029] As shown in Figure 6A, a double locking mortise joint 21 comprises a first member 1 and second member 2 which are rigidly and snugly yet removably joined together. The first member 1 as in Figure 8[7] and 8A, can be shaped like a table leg and comprises of a top end 3, an inner side 19 and an outer side 20. The inner side 19 and outer side 20 are substantially parallel to each other or may have the same curvature.

Please replace paragraph [0032] beginning on line 23 on page 10 with the following replacement paragraph:

A3 [0032] The second member 2, as in Figure 7[8], can be shaped as the corner of a tabletop and comprises of a second mortise 14, a top surface 15 and a bottom surface 16. The said second mortise 14 comprises of two opposing sides 17 which are generally parallel to each other, and a second mortise end 18 that connects the two opposing sides 17. The top surface 15 and bottom surface 16 is located next to the second mortise end 18.
